### Description:

EMBLEM LAMPERSGL2 is a self-adhesive glossy lamination film with UV protection for posters. LAMPERSGL2 is for cold lamination.

The film is PVC 75 µm monomer. The glue is developed as project: "True Colour Protection" A special feature is the neutral clear glue. There is no change of colours in the poster after lamination process.

The lifetime of LAMPERSGL2 is about 3 years. Please pay attention that the lifetime of the laminated print is related to much more other facts so the enduser has to make his own tests.

What ever happens there is no risk for the laminated product to get water between print and lamination film. So you can cut at the border of the laminated print.

The film has excellent durability against humidity and yellowing.
