

EMBLEM Protection Film-Series

EMBLEM Protection Film matt

Matchcode:	PROFMA
Material:	PVC, monomeric
Finish:	matt
Color:	transparent
Weight/Thickness:	ca. 70µm
Backing:	63 g/m ²
Glue:	permanent acrylic glue
Adhesion on steel after 24h(FTM2):	min. 9 N/25mm
Appl. temperature:	< +10°C
Temperature resistance:	from -30°C to +120°C
Width of roll:	105 cm, 140 cm and 153 cm
Length of roll:	50 meters
flame retardant:	sticked to steel self extinguishing

Description:

EMBLEM PROFMA is a self-adhesive matt surface protection film. PROFMA is for cold lamination.

The film is PVC 70 µm monomer. A special feature is the neutral clear glue. There is no change of colours in the poster after lamination process.

The lifetime of PROFMA is up to 3 years. Please pay attention that the lifetime of the laminated print is related to much more other facts so the enduser has to make his own tests.

What ever happens there is no risk for the laminated product to get water between print and surface-protection film. So you can cut at the edge of the laminated print.

The film has excellent durability against humidity and yellowing.
