Description:

EMBLEM SBGL is a heavy banner for digital printing with solvent inks. The glossy surface allows brilliant colours and exceptional contrasts.

The material can be eyed, is weldable and sewable. During the finishing you have to ensure that adequate tools are used. Furthermore it is necessary that eyed are placed in a distance which is proportionated to the expected wind load and own weight of the banner.

Main fields of application are durable promotion messages outdoor applications.

Small print

Because of the great number of potential influences at object time and applinace of the above-mentioned materials, on which we have no bearing, test prints have to be effected by the user himself. A legally binding warranty can not be deduced from our specifications. Every liability and warranty that goes beyond the warranty of the product amounting to the product's value as well as entitlements to damages are excluded.
