

EMBLEM Solvent Frontlit Banner 500 Matt FR

EMBLEM Solvent Frontlit Banner 500 Matt FR

Matchcode:	SOFB500MFR
Material:	PVC-coated banner
Finish:	matt
Colour:	white
Weight:	500 g/m ² 12.7 oz/yd ²
Tensile strenght:	2500 / 2100 N/5cm acc. DIN 53354
Tear resistance:	250 / 200 N/5cm acc. DIN 53356
Width of rolls:	76,2; 106,8; 137; 160; 244; 320 cm
Length of rolls:	25 meters
Flame retardant:	yes; B1 acc. DIN 4102-1
Compatible inks:	
Eco solvent:	yes
Solvent:	yes
UV-curable:	yes
Latex:	yes

Description:

EMBLEM SOFB500MFR is a special coated, calendered PVC-banner for digital printing with solvent and eco-solvent inks. The finish is coated with acrylic lacquer. This makes it smooth and homogenous. Prints have brilliant colours.

The main field of application for this material is the production of promotion banners for short and medium term outdoor advertisements.

The SOFB500MFR can be eyed, glued and sewed. It is hot and high-frequency weldable. During finishing the user has to make sure that adequate tools are used. Furthermore it is necessary that eyes are placed in a distance which is proportionated to the expected wind load and own weight of the banner.

For assembling of different banner parts or edge reinforcement we recommend to use the special EMBLEM tapes.

Because of the great number of potential influences at object time and application of the above-mentioned materials, on which we have no bearing, test prints have to be effected by the user himself. A legally binding warranty can not be deduced from our specifications. Every liability and warranty that goes beyond the warranty of the product amounting to the product's value as well as entitlements to damages are excluded.
