

EMBLEM Solvent Glas Decoration Film

EMBLEM Solvent Glas Decoration Film

Matchcode:	SOGDF
Material:	Polyester
Finish:	glossy
Color:	clear
Thickness:	155 my
Weight:	205 g/m ²
Glue:	clear, waterproof removeable without residue applicable dry and wet
Width of Rolls:	24", 42" and 54"
Length of Rolls:	20 meters
BubbleJet Dye:	no
BubbleJet Pigment:	no
Piezo Dye:	no
Piezo Pigment:	no
Piezo Oil:	no
Piezo Eco Solvent:	yes
Piezo Solvent:	yes
Flame retardant:	no

Description:

EMBLEM SOGDF is a selfadhesive clear film with liner. The glue and the film are clear. The film is useful for Solvent and Eco-Solvent inks.

Typical use is: glas-decoration, exhibitions, mechanical engineering, prototyping, labels for film keyboards, backlit (mounted on a light diffusion board)

Advise for workmanship:
the drying of the printed medium is highly dependent on the inks used as well as the solvent coating and the colour saturation. When printing film in a roll-to-roll process, the printed strip should be unrolled and laid flat as soon as possible until final drying. Solvent residues due to insufficient drying times can lead to blocking during transport in rolled-up form. During lamination such residues can negatively impact flatness, the shrinkage behaviour and the anchorage of the laminate on the printed film.

When eco-solvent inks are being used, we recommend to protect the printed surface if it is subject to abrasion, sweat or other mechanical influences. In this case we recommend to protect the image with laminating film.

To avoid fingerprints the use of cotton-gloves is advisable.
