BubbleJet Pigment:	no
Piezo Dye:	no
Piezo Pigment:	no
Piezo Oil:	no
Piezo Eco Solvent:	yes
Piezo Solvent:	yes
Flame retardant:	stuck on aluminium the film is self-extinguishing

Description:

EMBLEM SOLF is a translucent film with satin surface. It is useful for illuminated applications as light boxes.

SOLF can be applied dry or wet. During wet application the adhesive might be coloured white. This will - subject to weather condition - disappear within a few days.

To avoid fingerprints the use of cotton-gloves is advisable.

Because of the great number of potential influences at object time and application of the above-mentioned materials, on which we have no bearing, test prints have to be effected by the user himself. A legally binding warranty can not be deduced from our specifications. Every liability and warranty that goes beyond the warranty of the product amounting to the product's value as well as entitlements to damages are excluded.
