Description:

EMBLEM SOPOLAMGL3 is a self-adhesive semi matt lamination film with UV protection for posters. SOPOLAMGL3 is for cold lamination.

The film is PVC 70 my polymer. The glue is developed as project: "True Colour Protection" A special feature is the neutral clear glue. There is no change of colours in the poster after lamination process.

The lifetime of SOPOLAMGL3 is up to 5 years. Please pay attention that the lifetime of the laminated print is related to much more other facts so the enduser has to make his own tests.

What ever happens there is no risk for the laminated product to get water between print and lamination film. So you can cut at the border of the laminated print.

The film has excellent durability against humidity and yellowing.

Because of the great number of potential influences at object time and applinace of the above-mentioned materials, on which we have no bearing, test prints have to be effected by the user himself. A legally binding warranty can not be deduced from our specifications. Every liability and warranty that goes beyond the warranty of the product amounting to the product's value as well as entitlements to damages are excluded.
