

## EMBLEM Solvent Photo Paper semiglossy

### EMBLEM Solvent Photo Paper semiglossy

Matchcode:	SOPPSG
Material:	photographic paper with PE-coating on both sides
Finish:	semiglossy
Color:	white
Weight / Thickness:	230g/m <sup>2</sup> / 230μ
Width of Rolls:	30" / 42" / 54" / 60"
Length of Rolls:	30 meters
BubbleJet Dye:	no
BubbleJet Pigment:	no
Piezo Dye:	no
Piezo Pigment:	no
Piezo Oil:	no
Piezo Eco Solvent:	yes
Piezo Solvent:	yes
Flame retardant:	no

### Description:

EMBLEM SOPPSG is a waterproof coated paper for digital printing with solvent and eco-solvent inks.

The main field of application for this paper is the production of posters, PoS and boards for indoor applications.

The drying time depends on the load of ink. Based on the special coating it is possible to achieve brilliant and intensive colours with reduced amount of ink. This will save money and reduce the drying time.

The drying of the printed medium is highly dependent on the inks used as well as the solvent coating and the colour saturation. In a roll-to-roll print process, the printed strip should be unrolled and laid flat as soon as possible until final drying. Solvent residues due to insufficient drying times can lead to blocking during transport in rolled-up form.

Before lamination the prints have to be dried and fumigated completely otherwise there are the risks of problems with flatness, the shrinkage behaviour and the anchorage of the laminate on the printed film.

To avoid fingerprints the use of cotton-gloves is advisable.
