#### Description:

EMBLEM SOTBT240FR is featured by its softness and resistance against bends. The special coating has a water repellent effect of more than 500 mm head of water. The coating of SOTBT240FR has a good usability for a lot of solvent and UV-curable inks, the back side is printable with dye-sublimation inks.

Associated with the satin-finishing this media allows high-quality prints with extra intensive colours and very good contrasts.

The material is sewable and can be eyed. During the finishing you have to ensure that adequate tools are used. Furthermore it is necessary that eyes are placed in a distance which is proportionated to the expected wind load and own weight of the banner.

#### Typical Applications:

In and outdoor banners, promotion tents, displays, light boxes, banners at fairground, stagedecoration,

Because of the great number of potential influences at object time and applinace of the above-mentioned materials, on which we have no bearing, test prints have to be effected by the user himself. A legally binding warranty can not be deduced from our specifications. Every liability and warranty that goes beyond the warranty of the product amounting to the product's value as well as entitlements to damages are excluded.
