Weight:	450 g/m ² 13.17 oz/yd ²
Tensile strenght:	950 / 750 N/5cm acc. DIN 53354
Tear resistance:	120 / 60 N/5cm acc. DIN 53356
Width of rolls:	76,2; 106,8; 137; 160; 244; 320 cm
Length of rolls:	25 meters
Flame retardant:	no
Compatible inks:	
Eco solvent:	yes
Solvent:	yes
UV-curable:	yes
Latex:	yes

Description:

EMBLEM SOVFB450SM is a laminated PVC-banner for digital printing with solvent and eco-solvent inks. The finish is semimatt.

The main field of application for this material is the production of promotion banners for short term outdoor advertisements.

The SOVFB450SM can be eyed, glued and sewed. It is hot and high-frequency weldable. During finishing the user has to make sure that adequate tools are used. Furthermore it is necessary that eyes are placed in a distance which is proportionated to the expected wind load and own weight of the banner.

For assembling of different banner parts or edge reinforcement we recommend to use the special EMBLEM tapes.

Because of the great number of potential influences at object time and applinace of the above-mentioned materials, on which we have no bearing, test prints have to be effected by the user himself. A legally binding warranty can not be deduced from our specifications. Every liability and warranty that goes beyond the warranty of the product amounting to the product's value as well as entitlements to damages are excluded.
