Description:

TAC3 is a heavy, satin finished, coated 100% cotton cloth for pigmented and dye-based ink.

Thermal and piezo-electric printers are supported in equal measure.

By using pigmented ink the prints will be water repellent.

The highperformance universal inkjet coating offers high stability against the most environmental influences. Also when using dye inks, the prints are protected against gas fading.

The satin surface enables brilliant and reflection reduced colour reproductions.

The main use of EMBLEM TAC3 are indoor-appliances.

TAC3 can be sewn up, but should not be folded.

The break-proof coating is especially performed for attachment on clamping frames.

To avoid fingerprints it is advisable to wear cotton gloves.

Typical Applications:

Decoration:	theatre, cinema, museum etc.
Graphic Arts:	art reproductions, high-end photographs
