

EMBLEM Water Backlite Film

Matchcode:	WABALI
Material:	rigid PVC film
Finish:	translucent
Color:	semimatt
Thickness:	200 µm
Weight:	225 g/m ²
Width of Rolls:	36"/42"/50"/54"/60"
Length of Rolls:	30 Meters

BubbleJet Dye:	yes
BubbleJet Pigment:	yes
Piezo Dye:	yes
Piezo Pigment:	yes
Piezo Öl:	yes
Piezo Eco Solvent:	no / backside yes
Piezo Solvent:	no / backside yes
Flameretardant:	no

Compatible Printers and Inks:

HP DesignJet-Serie Dye + Pigment
Encad NovaJet GS/GS+/GO
Epson Stylus Pro Series Pigment
CANON WP-Serie Pigment
CANON IPF-Serie Pigment
Mimaki JV-Serie waterbased Dye- and Pigment-Inks
Roland HiFiJet waterbased Dye- and Pigment-Inks
Mutoh RJ-Serie waterbased Dye- and Pigment-Inks

Description:

EMBLEM WABALI is a translucent rigid-PVC-film for frontprint to produce illuminated displays for indoor and outdoor use.

The coating is microporous and waterproof and can be printed with waterbased dye- and pigment-inks. Additionally you can use oilbased pigment inks. WABALI is scratch resistant and can be laminated with EMBLEM LAMPER-Series. When using dyebased inks we recommend to laminate to improve the light-fastness and smudge-proofness. After printing we recommend to store the remaining roll in the closed original packing in a cool and dry environment.

To avoid fingerprints it is advisable to wear cotton gloves.

At last we want to inform you that you can print on backside with Eco-Solvent or Solvent-Inks. So this film is for universal use: Printers with waterbased inks and with Solvent-Inks!
