Piezo Öl:	no
Piezo Eco Solvent:	no
Piezo Solvent:	no
Flameretardant:	no

### Description:

EMBLEM WACF is a clear transparent film for use at inkjet printers with waterbased dye- or pigment inks. The film is non-tear and the prints are dry immediately. A special coating gives brilliant colours. There is a sensor stripe at one border for those printers which would not recognize this film without. It is easy to strip away this stripe. WACF has to be protected against humidity. More than 60% has bad influence to the print quality.

For the prevention of fingerprints it is advisable to use cotton gloves.
