

EMBLEM Diamond Miroporous Photopaper-Adhesive

EMBLEM Diamond Microporous Photopaper-adhesive

Matchcode:	WADIMIP-ADH
Material:	self-adhesive Photo- paper with mirco- porous coating, double- sided PE extruded
Finish:	diamond-glossy
Color:	white
Opacity	>80%
Weight / Thickness:	170g/m ²
core:	3"
Width of Rolls:	36", 50"
Length of Rolls:	30 Meters
BubbleJet Dye:	yes
BubbleJet Pigment:	yes
Piezo Dye:	yes
Piezo Pigment:	yes
Piezo Öl:	N.N
Piezo Eco Solvent:	no
Piezo Solvent:	no
Flameretardant:	no

Description:

EMBLEM WADIMIP is a self-adhesive photopaper with special microporous coating and is double-sided PE extruded. The unique "diamond-coating" creates an own standard of glossy. This special coating makes the prints "instand- dry". For that reason we recommend this media for use with inkjetprinters at high print-speed - especially for use waterbased pigment inks.

For protection against mechanical abrasion we recommend to laminate with cold lamination film. Every print which has been produced with dye-based ink has to be laminated to protect it against gas-fading. To avoid mechanical influences lamiantion is advisable at all.

For the prevention of fingerprints it is advisable to use cotton gloves.
